## A new dedicated space for combat sports

The city has decided to capitalize on its sporting history and connection to combat sports. A new 2,200 m<sup>2</sup> building is devoted entirely to the practice of judo, karate and boxing. The dojo has two 8 x 8 m combat areas and four 6 x 6 m combat areas with a refereeing area. Next to the dojo, a boxing gym with a fixed boxing ring completes the sporting offer. Everything has been designed for high-level sport, as the building also houses a recovery room, a weight room, a viewing room and a weigh-in room. The overall reception leaves nothing to be desired. You have access to administrative areas, equipment rooms, an infirmary and an ultra-modern locker room. You can follow the competitions in the 400 seat bleachers with 10 PMR spaces.

## A multisports hall

A hall (designed to international standards) featuring parquet flooring, a weight room, a recovery room and a viewing room provides you with the best possible conditions for practicing basketball. This hall is equipped with 300-seat bleachers.
