FACILITIES

Numerous facilities for practicing:

- Shot put,
- Discus,
- Hammer throw,
- Javelin,
- High jump,
- Pole vaulting,
- Triple jump,
- Long jump,
- All types of stadium-based races

The Athletics Stadium and indoor hall are situated at the heart of the Henri Terré sports center and the Aube Sports Center.

Training conditions are ideal and the facilities can host international delegations in the best possible conditions.

An ideal central location among the amenities

The stadium boasts all the necessary amenities for practicing all the disciplines within athletics. Its facilities can accommodate throwing sports (shot put, discus, hammer, javelin), jumping (high, pole, triple, long) and different races, in the best conditions. It also has modern and high-quality night lighting and meets international criteria.

Since 2018, a national meet of high-level French athletes has taken place here every year.

Its direct access to Chartreux swimming pool also makes it ideal for triathletes.

An indoor training area

Next to the track is a 1,800 m² indoor hall for training and warming up away from any poor weather. The locker rooms, under the bleachers, complete the offer for this facility.
